James Brinton, M.A., CCC-SLP, James has worked as a home health, outpatient and hospice SLP and has worked with families and PALS for the last 2 years providing SGD demonstrations and education to professional teams. This presenter is aware of the conflict of interest policy and has agreed to present the information fairly and without bias.

Jon Nilsestuen, PhD, RRT, FAARC, Jon is employed by Respiratory Quality Services to perform research involving clinical use of the cough assist device. RQS provides clinical services to patients that have been prescribed a number of different respiratory therapeutic devices including sleep apnea devices; non-invasive mechanical ventilation and cough assist devices. My research has involved how to use the downloaded graphics to improve how we adjust the settings or customize the settings on the patient’s device in order for them to receive maximal lung clearance benefit from the cough assist device.

I also serve as a part time consultant to Philips Respironics helping them to develop improved educational materials and a better understanding of how live graphics might benefit how the device is adjusted for improved lung clearance. This presenter is aware of the conflict of interest policy and has agreed to present the information fairly and without bias.

Peggy Dellea, MS, OT/L, full time employee of Boston Children’s Hospital, will be discussing aspects of the ALS Program at Boston Children’s Hospital. This presenter is aware of the conflict of interest policy and has agreed to present the information fairly and without bias.

Raghav Govindarajan, MD, FAAN, Speaker and consultant for MT Pharma –the maker of Radicava.
This presenter is aware of the conflict of interest policy and has agreed to present the information fairly and without bias.

The remaining presenters have no relevant financial relationship to declare.
